

SITUATION: (A1) Animals accompanying their owners are being brought to a human shelter, that isn't equipped for animal sheltering, and need to be transported and sheltered at the new animal facility.

NEEDS:

- Vehicle(s)
- Means of containment to transport 30 small and medium-sized pets 20 miles within a 2-hour time limit

SITUATION: (A2) Animals have been rescued and now need to be transported to the new animal facility. Four minivans have been obtained, but licensed drivers are required.

NEEDS:

- 4 responsible licensed drivers over the age of 18 to transport animals
- Supplies for identifying locations where animals were rescued

SITUATION: (A3) Shelter staff notice several pets brought in are sick or injured.

NEEDS:

- 2 animal health specialists (veterinary technicians or licensed veterinarians)
- PPE

SITUATION: (A4) Shelter staff notice many pets were brought in wet, shivering, and smelling of sewage. Therefore, 20 animals need to be bathed, brushed, and dried.

NEEDS:

- Grooming supplies (shampoo, brushes, towels, dryers, etc.)
- Clean water for baths

SITUATION: (A5) Shelter staff notice many of the pets were brought in wet, shivering, and smelling of sewage. Therefore, 20 pets must be bathed, brushed, and dried within the next 4 hours.

NEEDS:

- 4 adult workers to clean the pets
- Clean bedding and towels
